$$P = \frac{P_0 - V}{P_0 - 1} \cdot n + P_0$$

$$P = \frac{52.30 - 1.30}{1 + 0.30} - 0.88 - 0.68 - 0.24 = 37.43 /$$

$$P = 32.40 - 0.88 - 0.68 - 0.24 = 30.60 /$$
